Measure, Appointment or  
Topic: SB77

As a small blueberry farmer, I oppose this restrictive measure on EFU land. We need alternative ways to generate income to keep our family farm running. Restricting our ability to diversify puts us at a disadvantage, making it harder to remain sustainable and keep our land in production. Protecting farmland is important, but this measure makes it more difficult for us to succeed in agritourism and other initiatives that help support our farm.
