

Submitter: Robin Lee
On Behalf Of: myself
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I oppose HB 3362. Taxes are supposed to go to the ballots. No taxation without representation. That is to say, survey, poll, count every vote. I scrolled and scrolled and scrolled. I was through 235 pages of display (18 lines per 'page') and 90% of the submissions are to OPPOSE. I looked to the side bar: the little cursor was not quite halfway down, but I decided the trend isn't going to change.

Dear legislators, VOTE NO is the wisest choice if you want your seats the next time your term(s) expire.

Just so you know, my reason for NO is that you want money for other projects than maintaining the roads. No way does that justify taxing wear-and-tear. Heck, poor road maintenance exacerbates our tire wear! BTW, I'll be looking up that bill for \$1.5M for Beaver control. let nature take its course. If there's a "spare" \$1.5M in State coffers, use that for housing. (I vote to shred SB48, too.)
