

Submitter: Cindy Schmidt

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB821

I strongly oppose SB 821 removing the deadline required to assess existing sex offender registrants into a risk level. Oregon government has a responsibility to uphold law, not avert law and responsibility of public safety for convenience. Legislate a solution that ensures oversight and completion to the important program/process of HB 2549 . Legislate a solution that examines why the program/process of HB 2549 failed and provide transparent accountability. Thank you.
