

Submitter: Tina Castanares MD

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: HB3497

I have been working since 2015 on behalf of older adults, and all Oregon residents , since all of us face aging – – personally, caregiving for our loved ones, workforce issues related to aging, and so much more – – and I am fully behind this bill. We need the multi sector plan to be adopted right away so that we can get busy on implementing it and expanding our attention to all Oregon families and communities in this way.
