

Submitter: Debra Lutje

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: HB3497

As someone who will be 63 years old this year I am VERY concerned that Oregon prepare for everyone's aging. We cannot allow our people, most of whom worked their whole lives, live in abject poverty and isolation. The legislation is needed now more than ever given that the Federal Government has been taken over by greedy sociopaths. Please support HB 3497. I really don't want to live in a chicken coop at 80 years old.
