Measure, Appointment or Topic: HB3497

With the increasing number of aging Oregonians, it is very clear we need to plan for our future as a State. I am a retired gerontologist, and remember learning about this demographic trend early in my career. Now I am part of this group of aging Oregonians. It's obvious the aging of our population will affect the life of all our citizens, not just the elderly. I hope you will support HB 34971 to develop a Multi-Sector Plan for Aging.
