

Submitter: Jon Richards

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

We do not need MORE taxes on anything! Your job as legislators is to work for us, not against us. ANY additional taxes need to be voted on by the people not adding additional taxes to us without our say in the matter. If you want to use this I suggest you cut spending elsewhere, such as wasting money on illegals. Our government, local, state, federal need to work within their means and be wise with spending, much like we all, well those of us not bought by others such as federal officials on BOTH sides, have to. I am sick of my taxes going out as handouts for those whom do not care, appreciate or even use various resources. It does not look like anyone on this committee comes from southern Oregon, but you should still listen to those of us in OUR state.
