Topic: SB78

I strongly oppose SB78. Imposing arbitrary size limitations on homes rebuilt after destruction places only more hardship on the property owners. With all the problems Oregon faces and the housing shortages, it is discouraging and concerning that time and energy are being spent finding more ways to restrict homeowners' ability to rebuild. This bill also ignores the fact that many existing farms were built to accommodate multi-generational households and growing farm needs. Let's support our rural neighbors and quit adding more government restrictions and red tape. Vote NO on SB78.
