Subject: Testimony in opposition to SB216

To: Senate Committee On Energy and Environment

Chair Sollman, Vice Chair Brock Smith, and members of the Senate Committee On Energy and Environment

I am writing in opposition to SB216. This bill would repeal the safeguards that currently keep Oregonians and our environment safe from further nuclear activity and waste. This bill would also ignore the fact that repealing this law requires both a currently licensed national nuclear waste facility AND approval from Oregon voters to lift the moratorium.

I urge your committee to oppose SB216.  
Thank you.

Sarah Chaney
