

Submitter: Eddie Melendrez  
On Behalf Of: Food For All Oregonians  
Committee: Senate Committee On Human Services  
Measure, Appointment or Topic: SB611

I support Food For All Oregonians. Undocumented immigrants are the backbone of this country and state of Oregon. These community members pay into social security and other taxes as many work and due to status never benefit from. No one should should go hungry in Oregon. What you allow to be done to a whole group of community members will eventually be done to you. We are seeing it now at the federal level with the Trump administration. They started with attacking immigrants and immigrant rights. Now they are going after Veterans, federal workers, Education and more. I support Food For All Oregonians because it is the right issue to support!
