Dear Legislators,

I write in opposition to this bill, especially because the funds generated will not go into the road fund but into the general fund as I understand it. Just the fact that you think we can stand another tax especially on tires which are absolutely essential here in eastern Oregon I find incredible! We drive miles and miles compared to you west siders, we have no choice! Our farmers are squeezed as it is and this ridiculous new tax is a NO GO!

Thank you, Mary Hoehna
