Any and all degree of sexual offensive behaviors and/or actions deserve consequences. Why are you trying to annihilate Oregon, Governor? If there is the slightest consideration they ended up where they did because of a behavior or act that they were caught doing, there is a reason! Why would we ignore any types of behaviors or acts associated with these bills? Consequences are essential for correction and prevention.

Oregon cannot afford to go soft on any of these sex offense bills. Look at our streets littered with drug addicts because it's legal now. Lessening the rules, restrictions, expectations, and consequences is applying acceptance and toleration of these behaviors.

I'm sure many Oregon citizens would be happy to volunteer their time to help records catch up versus wash it under the rug. Oregon spends so much money elsewhere and cannot hire staff to appropriately handle their job, especially on these highly important matters. Sounds like time and money management needs improvement asap!

This is putting Oregon at extreme risk & you know it's not ethical!
