

Submitter: patty falkenstein

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: HB3497

I am in support of HB 3497, we need a comprehensive plan to guide the future of Oregonians as we age. We all deserve to enjoy life, work well and receive the services we need to stay active and engaged. Let's not lose the experience and expertise of our seniors, and let's celebrate the upcoming generations. We can work together to create an Oregon that works for all. Please support the move toward streamlining our systems.

Thank you
