Measure, Appointment or SB5521
Topic:

I support fully funding SB5521 for the private forests. These reforms protect watersheds, streams and aquatic life. It protects stream side habitat and its wildlife and plant life. It protects and enhances clean water for all. There should be full funding for private forest owners \$10 million dollars. There should be full funding for management and adaptive protection at \$6 million.

Please fund and preserve this agreement between private forest owners, government agencies and environmental interests. I am a small woodlot owner and I fully support the agreement and ask for full funding.
