

Submitter: Marissa Theve

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3453

Please support HB3453 and enable transportation choice for 80% of the state's population. Older generations (literally) paved the road for a car-dependent lifestyle here in the Willamette Valley. It's time to stop taking decisions away from future generations and offer an alternative to single-occupancy vehicles. It is embarrassing that in the year 2025 we can't directly connect our three most populous cities which are only at a maximum 110 miles apart. Thank you for considering this testimony and for your important work in shaping our future.
