

Submitter: ralph langstadt

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB3609

DPPs work by bringing together rooftop solar and battery systems with other technologies such as smart thermostats, to provide electricity where and when it's needed most. Anything we can do to better utilize the green resources we have is a plus. Please consider moving forward with HR3609. Thank you
