Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB216

Please vote no on this bill. We don't want or need the radioactive mess nor the potential terrorist threat these small nukes present. There are better, safer ways to provide the power we need. We don't need to be feeding power to power AI and crypto greed. We voted to prohibit nukes until there was safe permanent storage for the waste, please don't override that vote, the will of the people. Why provide Putin, Kim Jong U, CCCP or right-wing wackos soft targets to contaminate or paradise.
VOTE NO!!!
