SB821

I oppose these measures! I am a victim of sexual abuse and domestic violence from a NOW registered sex offender. He should have been back in 1997 but he was only charged with contributing sexual acts to a minor. For years after that he continued to get away with different forms of sexual abuse and wasn't charged with enough to be made to register as a sex offender for 20 years and finally had to register only after he physically forced him self sexually on to a 14 year old while he was on probation for strangulation on his own son. In my opinion there is absolutely already to long of delays and takes way to much inappropriate conduct required to make someone register as a sex offender. Maybe if it didn't take so long or much victims might not be victims and have to live in fear. Thank you for your time
