Committee: House Committee On Economic Development, Small  
Business, and Trade

Measure, Appointment or Topic: HB2527

The Union County fairgrounds are in desperate need of upgraded restrooms at the site. This bill would allow the restrooms to be constructed which would help facilitate a broader use of the fairgrounds for many different activities. The Union County Fair board has been working to get this project completed for over 5 years. It is important to the economy of Union County not to mention all of the kids involved with 4-H and FFA projects.
