

**Testimonial in Support of House Bill 3104
83rd Oregon Legislative Assembly – 2025 Regular Session
Submitted by 3PO Networks**

Chair Daniel Nguyễn, Vice-Chair, and Members of the Committee,

My name is Alexander Gamota, and I am submitting this testimony on behalf of 3PO Networks in strong support of House Bill 3104. Our mission at 3PO Networks is to provide critical infrastructure as a service to underserved and rural communities, ensuring equitable access to reliable sanitary sewer and broadband telecommunications.

Rural communities in Oregon continue to face significant challenges in accessing modern infrastructure, limiting economic development, education, healthcare, and overall quality of life. We firmly believe that the most effective way to address these challenges is through strategic public and private partnerships that leverage resources, expertise, and innovative solutions. House Bill 3104 represents a significant step toward fostering such collaboration, enabling the efficient deployment of essential infrastructure where it is needed most.

By supporting HB 3104, Oregon can establish a sustainable framework that encourages investment, streamlines deployment, and ultimately bridges both wastewater capacity and the digital divide for rural residents. We urge the committee to pass this critical legislation to ensure that no community—no matter how small—is left behind.

Thank you for your time and consideration.

Sincerely,
Alexander Gamota
