I have worked in the agriculture industry all my life. Living on a family farm, and in the agriculture lending industry. This bill will put the family farms at a severe disadvantage. The big farm corporations will be able to follow and fund implementation of these rules. While the family farms use mostly seasonal employees and do not have the resources to follow these rules. I feel that this bill is a solution in search of a problem and will not improve workers rights or farmers abilities to manage their farms. All the farmers, ranchers that I have had the opportunity to work for or with over the years I have yet to find any that do not do everything the can for their workers. They want to retain good people as they are so hard to find and train to the operation. Thank you for your consideration.
