

Submitter: Timothy Baker

On Behalf Of:

Committee: House Committee On Labor and Workplace
Standards

Measure, Appointment or Topic: HB2548

Do you folks even know where your food comes from?The small farmers and rancher don't need more regulation. This is excessive overreach. A lot of people buy locally grown meat and vegetables. No hormones or growth chemicals. The vegetables are grown with care and aren't laced with chemicals. You should try it you could have your kids grow up cancer free. You are running the small farmer/rancher out of business.
