

Submitter: Nancy Bray

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB3365

As a retired educator with 40 years of experience in the public schools, I strongly support HB 3365. It will expand and integrate climate resilience instruction across all K-12 core content areas. This knowledge is essential for our young people to help them learn about and address the climate crisis that we all are facing.
