

Submitter: Steve Kaser

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3501

The State of Oregon needs to consider any, all and every possible adverse condition when considering adding, changing or eliminating anything having to do with any water in Oregon be it surface or groundwater. Not doing so sends the message that there are special interests at play in making water related decisions. Every stake holder affected has the right to be considered when making water decisions.
