

Submitter: Gail Staniford

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3194

Approximately 30% of farmland in Oregon is rented. This bill would impact A LOT of farmers and ranchers.

Many leased parcels of farmland also include a single-family home/ dwelling, which OR-OSHA asserts are subject to their farmworker camp regulations (see news below).

Over 15% of registered farm labor housing is leased by multiple employers.

Without 24-7 management of the property, landowners could be subject to steep penalties or costly litigation.
