Measure, Appointment or Topic: HB2029

Dear Chairman Nosse and Members of the House Committee on Behavioral Health and Health Care:

My name is Lorna Cole and I am a parent of an adult daughter who has mental health and addiction problems. We live in Northeast Portland.

I am writing this letter in support of HB2029. Insurance audits should be regulated. The proposed coordinated guidelines in this bill are reasonable and fair and their enactment will ensure safe and efficient access to care.

Thank you for supporting this bill.
