Topic: HB2548

I am submitting opposition to HB 2548. We are a 3rd generation family farm and face many struggles already, as it seems that Oregon not only does not support it's farmers but is committed to destroying us and driving us out of business. There are plenty of regulations and watchguards in place, let's not add on another rock to the pile that will topple us. Grass seed industry is the second largest in Oregon, making it vital for the economy of the state and the thousands of people it employs. Let's ease up on the restrictions and quit looking for new ways to make it more difficult, which this bill will do. I give an emphatic NO on this bill.
