On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB3444

I voice my support for bill 3444. My student highly benefits from being in a charter school. He has shown a lot of growth since beginning attending Gresham Arthur Academy. When previously going to a public school, we have experienced lack of attention given to each student due to high number of students per classroom. We have noticed the difference since transferring my student to a charter school. Each teacher is a lot more involved with each student. We are in constant contact with his teachers regarding his progress and work together to ensure he gets the support he needs to succeed.
