

Submitter: David Culver

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB2029

Dear Chairman Nosse and Members of the House Committee on Behavioral Health and Health Care:

My name is David Culver and I am a LPC.

I am a therapist in Marion County of Oregon and have been practicing for 5 years.

I am writing this letter in support of HB2029.

Insurance audits are abusive and unfair and limit access to care to the people of Oregon. Please help stop this practice.

I know of many therapists who have stopped taking insurances all together because of the threat of unfair audits, and this severely limits mental health access for our communities.

Thank you for supporting this bill.

Sincerely,

David Culver, LPC
