Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3194

Leave our farmers alone. Let them create healthy food. We need our crops to survive. We need to stop regulating everything making it impossible for our farmers to adequately run their farms. Our farmers know they must care for their hands. They know they need the workers in order to quickly harvest and maintain the farm. The farmers I know care for their workers

Over regulation is killing our state and farms. Vote no on HB 3194
