Measure, Appointment or Topic: HB3167

As a lover of music and supporter of music artists in my community, it is important to me that my dollars spent go to the artist and not electronic scalpers and fees. People matter more than corporations and it is the job of the government to protect and provide for the people. Humanity matters and artists are sometimes the only conduit towards reminding people of that. It is already hard enough to create meaningful art. Protect our artists by not allowing third party ticketing corporations to take even more advantage of them. Please support HB-3167-3
