

Submitter: Jordan Curtis
On Behalf Of:
Committee: House Committee On Behavioral Health and Health Care
Measure, Appointment or Topic: HB2029

Dear Chairman Nosse and Members of the
House Committee on Behavioral Health and Health Care:

My name is Jordan Curtis and I am a professional counselor associate

I am a therapist in the Portland area of Oregon and have been practicing for 2 years.

I am writing this letter in support of HB2029.

Insurance audits are abusive and unfair and limit access to care to the people of Oregon. Please help stop this practice.

I support having clear and transparent policies relating to audits. I also support the elimination of bonuses and commissions for auditors, which incentivizes unjust practices. The livelihood of helpers like therapists should not be threatened or subject to fear and unpredictability. Giving therapists predictability and support also impacts their ability to focus more on clinical care for our Oregon populations... making this a more peaceful, safe, and healthy state.

Thank you for supporting this bill.

Sincerely,
Jordan Curtis
