To whom it may concern, I am appalled and the country at large is revolted at the excessive burden that is being laid at the feet of the most essential and responsible producers in our nation and now in this state. Affordable food is of course essential for the people of this state and of course the nation. If you say you care about people and continue by the cumulative onerous legislation of bureaucratic oppression you directly harm the people you are supposed to represent.....STOP! Keep food affordable (esp. in the inflationary time we are in!) Let the market do it's work or let the workers unionize but keep your socialist/communist stinking fingers out of our business. Thank You, Jim Denny
