

My name is David Groff I live in Portland at 4205 SE Ramona Street. I am part of the Leaven Sacred Organizing team and a member of Westminster Presbyterian Church

I urge you to pass HB3193 because it will provide a margin of support to farmworkers who have to work under difficult climate and weather conditions to ensure that all of us have ample food to eat. A permanent relief fund will give the government a way of responding to events like the heat dome of a few years ago and enable farm workers to avoid having to choose between their own personal safety and feeding their families.
