

Submitter: Shelly Birch

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB3512

I agree that pfoas are dangerous and I understand the desire to make laws however, I believe it is more beneficial for a "free" society to have more information readily available over banning through laws. Please acknowledge I was born, raised, and raised my own family here in Oregon and I am very concerned about all the freedoms the lawmakers are removing from good Oregonians. I would support more information going out regarding products that are dangerous over making new freedom stripping laws. Thank you for hearing my concerns
