On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB3365

My name is Monique Bochsler, and I oppose HB3365. Oregon's education system has lost its direction, currently ranking at the bottom nationally. Recent assessments of public school learning reveal that despite an 80% increase in funding since 2013, our test scores have not improved. Harvard and Stanford have placed Oregon last in post-Covid recovery, a situation exacerbated by legislation like this. We must prioritize the needs of Oregonians and their children. The public education system is failing to teach essential skills. It is crucial to shift our focus from merely increasing funding to ensuring we achieve meaningful results. We need to demand accountability and tangible outcomes. Vote NO on HB3365. Enough is enough.

Thanks for your time
