On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB2029

I am writing in support of this bill. As a therapist I value being in network with insurance so that clients who can not afford out of pocket prices can access critical mental health care. I live in constant anxiety that despite working hard and following the rules that at any time there could be an audit and the clawbacks could financially wreck me. I am increasingly leaning toward not taking insurance so that I have peace of mind. This bill is vital in ensuring safety and rights for providers as well as care to clients. Thank you.
