

RE: HB 2435

Just in the past year....Errant voter registrations were identified by DMV officials and the number of Non-US Citizen voters erroneously added to the voter rolls, WERE MANY!

This alone justifies the public's rights to know whats happening on a continual basis.

Especially if the Governor feels the need to house non-US citizens (who illegally crossed the border) in our STATE, she should be proactive in **making sure they don't get to vote!** Otherwise this illustrates another type of agenda.

A monthly statistical report **SHOULD ALREADY BE PROTOCOL** and will help draw a veil over the appearance that the State is HIDING this information specifically!

I completely support HB 2435 **as should ALL Legislators!** This is a common-sense BILL.

Respectfully,

Oliva Herrera
