I'm worried there are little to no resources for more charter schooling in the woodburn area. Private schooling in the area is also limited to one middle school in particular. I'm concerned where we will have to settle for middle school when my child leaves k-5. I enjoy smaller group settings for my child that are capable of giving her focused attention. It is momentous to have my child in a school uniform and not anguished about clothing trends. I love that Woodburn Arthur Academy has taught my child about rules and structure. Charter schooling has provided a safe culture and an open space without fear to learn. I would like to see bigger funds to this learning environment.
