

Submitter: Jams Markovics

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3453

We need more public transportation to connect people in the U.S.! This commuter rail would drastically improve the lives of folks who live in the Willamette Valley - one could live in Portland and work in Salem or vice versa! It would expand the workforce in areas that have less people and/or help folks afford to live in lower cost areas and work in higher populated regions, etc. Please vote YES on the commuter rail! Thank you!
