

Submitter: David Gray
On Behalf Of:
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1030

This bill is a direct violation of the 4th and 9th Amendments as per the 4th a person's body is solely their property, and per the 9th Amendment one has a right to privacy regarding their body and medical information. This was confirmed in 1973 when Roe v Wade was passed in the Supreme Court of these United States. Furthermore, with the vaccines that caused harm (specifically Covid related, and HPV related) it has been scientifically determined that not all vaccines truly are good for a person's health, and in fact are detrimental to a person's health. There also is the issue of country of origin as it has been proven some vaccines are made in countries like China where their government is anti-American. If I were to take a Flu vaccine I wouldn't want other vaccines added in the shot as some of those vaccines are truly harmful to the body. How many people who were collegiate or professional athletes died due to unexplained heart and pulmonary failure due to taking the mRNA serum made, but not properly tested, for Covid.
