

Submitter: Jan Tschida

On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB920

As a member of Malheur County and retired educator, I have seen the impact that drug use has on youth and families. OSU Extension is a research-based entity that has a long history of developing and delivering programs to address needs. The work OSU Extension Family and Community Health is doing to bring people together through Community Conversations is an inventive approach that is needed to support the community. Thank you for your support of HB 920 and for supporting the work OSU Extension does statewide.
