

Submitter: Shantel Schroeder

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1030

I understand the thought behind this, however, I am opposed to this. Elderly are, generally, easily taken advantage of and should be making medical decision with their primary doctor and not through a clinic at their living facility. This seems it can be a slippery slope in medical freedom and allowing patients to have the ability to have a candid conversation with their doctor who knows their medical history, and be able to make informed, and confident decisions. Please consider opposing.
