Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3477

I very much support HB 3477. The climate crisis is upon us, and the federal government will be no help for the next 4 years. It's up to us now. Measures like HB 3477 are the least we can do to save ourselves, and save our planet for our children. These are common-sense goals. Please pass this legislation.
