Measure, Appointment or Topic: HB3477

Dear Members of the House Committee on Climate, Energy and Environment,

My name is Gordon Molitor. I am a resident of Portland, OR and am writing in support of the Key Climate Target Goals Bill HB 3477.

Climate change is harming Oregon already. As a mountain climber, I can see the negative impact of climate warming on our alpine environments. Many other affects, such as a longer and more intense wild fire season, less snow fall, etc. are all around us. We need to take climate action now!

Without clear goals, Oregon will not be pressed to act and will not be able to measure our success. The goals suggested in HB 3477 up date our current targets that were set in 2007, and are in line with international standards and the U.S. National Climate Assessment.

The purpose of interim targets is to spur action sooner rather than later.

Please support the Key Climate Target Goals Bill HB 3477.

Thank You for your good work,

Gordon Molitor
