I strongly support HB 3453, which would extend the Westside Express Service to Salem and Eugene, past its current southern terminus in Wilsonville, which would make the service much more useful to me and most of the people I know. I think that this extension would likely provide an attractive commuter alternative to the many people who frequently travel from Oregon's largest city, Portland, and its state capital. In any case, this extension would increase regional transportation options and accessibility, and reduce congestion and greenhouse-gas emissions from intercity travel in the Willamette Valley. Please invest in Oregon's future by supporting this bill. Thank you.
