

Submitter: doug jackson

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1030

I FIRMLY OPPOSE SB 1030

This would:

- Mandate residential care facilities to make available to residents at least one on-site vaccine clinic administering, at a minimum, vaccines for Influenza, COVID-19, and Pneumonia.
- Exert costs on these facilities to carry out these clinics regardless of whether they believe it is right for their residents.
- Creates government overreach by mandating a specific health measure within private facilities, forcing them to comply with a government directive.
- Influence elderly, underinformed, or vulnerable residents to make health decisions that may not serve them well.

Senate Bill 1030 heavily infringes on freedom of private organizations, pushes arguable medical decisions, and should not become law.
