

Submitter: Shantel Schroeder

On Behalf Of:

Committee: House Committee On Higher Education and Workforce
Development

Measure, Appointment or Topic: HB3025

I am writing today in OPPOSITION to this bill. It is flawed by how eligibility is determined and the fact it can award monies to a student seeking a program that does not lead to a degree is very troublesome. "Section 1 [(4)(a)] (4) The commission may determine the cost of education of a qualified student enrolled at an eligible post-secondary institution in an eligible program that does not lead to a degree as defined by the commission by rule"

Our Oregon promise and other programs have assisted many students with continuing education, and tax payers have been covering the costs. Oregonians cannot continue to cover these increased costs, especially to those not seeking a degree. This is flawed. Please vote NO.
