

Submitter: Teresa Mueller

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3477

I urge the Members of the Committee to support HB 3477, in order to keep Oregon's greenhouse gas reduction goals up to date with the best available science and our peer states.

Fossil fuel use is surging on, and with it comes climate chaos. Our health, our safety from fire, heat and drought, and the very economy of our state are all at risk if we don't reach reasonable emissions targets. The people need the facts to urge us to do the right thing.

Please support HB 3477 to make clear the dangers ahead if we don't curb fossil fuel use.

For these reasons, I strongly urge you to support HB 3477.
