

Submitter: Stacey Holeman

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB215

In 1980 Oregonians voted to ban nuclear power in Oregon unless  
(1) a safe and permanent federal repository for waste was built, AND  
(2) unless Oregon voters voted to allow nuclear power.

Neither of those has happened so the idea of using taxpayer money to even begin  
down this road is unconscionable.

I heartily and fully OPPOSE this unlawful bill.
